

# Business listing

Large businessmen or *tycoons* are able to afford to invest lots of money to advertise their items. For instance *FMCG* (fast paced consumer goods) and soda industries are advertising their items through different mode of advertising like colorful ad in newspaper, television, radio, sms through mobile, *hoardings*, ad banners as well as road shows to ensure that people ought to be much aware of their items. *Lets* take a simple example whenever there's a global cup *cricket* match, after every over we are able to begin to see the ad of Pepsi, coke and *thumps* up. This means the ad is originating 50 occasions following the completing first *inning*. The process of those companies is the fact that these advertisements ought to be occur every human mind to ensure that whenever they will watch any movie in *multiplex* or likely to hotel they will use to state I'll prefer coke.

But how about the little businessmen? They can't afford this type of large add up to promote their professional services. Can there be any solution on their behalf? Yes, it's directory websites. Therefore the question strikes within the mind what's directory? Should you remember couple of in the past there is a perception of phone book. It's a thick book. It's also called yellow book. Phone book make reference to a mobile phone directory of companies, organized by category, instead of *alphabetically* by business title as well as in which advertising is offered. The sites were initially printed on yellow paper, instead of online [Business Listing](#) for *non-commercial* entries. The standard term phone book are actually also put on online sites of companies.
